**Subject:** Re: ...contracting company ...Regarding the Animas River.

Hello,

The US EPA has provided the following information resource:

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife.

Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>

Regular updates will be posted as they are available.

EPA Hotline: 844-607-9700 (toll-free)

**Subject:** Regarding the Animas River.

Mr. McGrath,

We are a full service contracting company specializing in Ground and Water Control, as we have viewed the situation with the Animas river we would like to enquire if there are any plans to seal the Mine Entry.

We have worked on such projects on many occasions and would value the opportunity to discuss these issues with yourself or any other entity

involved.

Above, I make an attachment showing some of our work, for further information please view our website as below.

Although I am sure you are extremely busy at this point, I believe we can be of assistance to you in this situation.

Please feel free to contact me at your convenience.

Kindest regards,

Eric. W. Smith.
